-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 26 January 2004.
- 2a) ☒ This action is FINAL. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

1. Claims 24-26 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement as set forth in paragraph 2 of the previous action. Applicant argues that the specification would enable the limitation of "greater than  $257 \text{ J} - \text{m}^2/\text{Kg}$ " because the specification teaches optimizing the grid weight percent and size. However, since the specification does not disclose the claimed values and does not disclose what the upper limits would be, even with optimization the potential to increase the SEAT value would not be limitless, the rejection is maintained.

2. Claim 27 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention for the reasons set forth in paragraph 3 of the previous action. Applicant's amendment to claim 27 has been fully considered, but the rejection is maintained because it is not clear how a structure can be substantially identical in construction to the inventive structure when the inventive structure has a plurality of matrix islands having a particular size and wherein the final volume ration of matrix to filaments has a certain value and the comparative structure "comprises a continuous polymeric matrix". The two structures cannot be substantially identical to each other. The thickness, composition, position, etc., of the matrix layer are not set forth in the claim but would all be important in determining what structures are being compared.

3. Claim 28 is allowed.

4. Applicant's arguments have been fully considered but are not persuasive.

Applicant's arguments regarding claims 24-27 are addressed above.

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
